

>> | ALEOS 4.0.14 Release Notes

ALEOS 4.0.14 is for AirLink Raven and PinPoint gateways. For upgrade instructions, refer to the ALEOS 4.0.x Configuration User Guide.

Bug Fixes

ALMS

Resolved an issue where the gateway configuration was not shown in ALMS

Security

Fixed issues identified in ICS-ALERT-16-182-01 / AL16-014 (CCIRC)

Known Issue

ALMS

In some cases, synchronize operations between the gateway and AirLink Management Service (ALMS) may fail. To work-around this issue, enable server-initiated communications or retry the synchronize operation.
